

# Installer Drill Bits

Flexible installer bits for drilling inside walls to fish wire or cable.

Flexible Installer Drill Bits

## High Speed Steel Bit

- Aggressive split point tip drills through metal plates, nails, screws and wood.
- Open flute design for fast material removal.
- Wire pulling hole drilled into flute of bit.
- Flexible steel shaft bends to reach desired hole location.

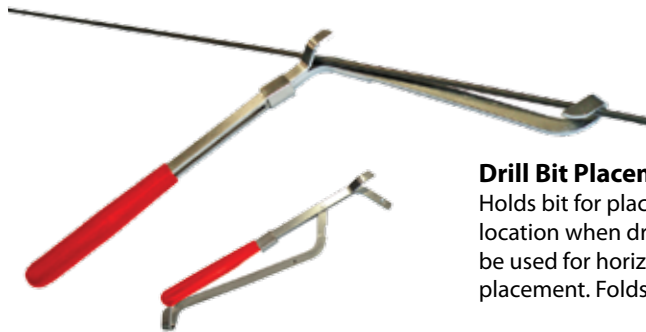

## Auger Bit with Screw Point Tip

- Four-cutter head design for fast drilling into wood.
- Screw point tip pulls bit into material and prevents bit from walking.
- Tapered head for easy bit removal.
- Wire pulling hole drilled into end of shaft
- Flexible steel shaft bends to reach desired hole location.

Point of Sale Packaging for Easy Display and Product Visibility

## Drill Bit Placement Tool

Holds bit for placement in proper hole location when drilling inside wall. Can be used for horizontal or vertical bit placement. Folds for easy storage.
