

## Telescoping Measuring Poles

Non-conductive fiberglass poles offer fast, accurate one-person measuring of height clearances and horizontal distances. Ideal for overhead lines, telephone, railroad, CATV, bridges and structures.

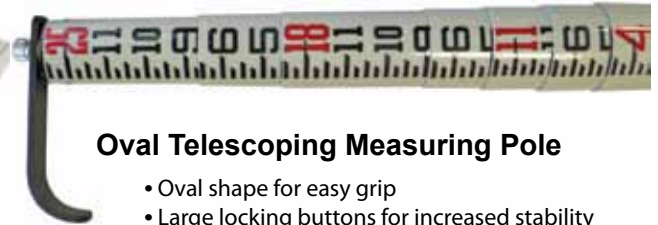

### Round Telescoping Measuring Poles

- Available in 25' or 36' length
- Eye level measurement reading
- Lightweight, portable with positive locking buttons
- Dual measuring scale - English and Metric

### Rectangular Telescoping Measuring Pole

- Rectangular shape for increased stiffness and maintenance of hole alignment
- Oversized, glare-resistant reading scale
- Dual measuring scale - English and Metric

### Oval Telescoping Measuring Pole

- Oval shape for easy grip
- Large locking buttons for increased stability
- Large markings for easier visibility
- English measuring scale

All Measuring Poles Include Carrying Bag And Removable Hook Accessory

Measuring Poles	Retracted Length	Part Number
25' Round Telescoping Measuring Pole, 5-Lb	52"	TP-125M
36' Round Telescoping Measuring Pole, 7-Lb	59"	TP-136M
25' Oval Telescoping Measuring Pole, 5-Lb	58"	TP-125N
25' Rectangular Telescoping Measuring Pole, 7-Lb	66"	TP-25MH
Replacement Hook for Measuring Pole		TP-25HK

### Pole Tag

For outside plant pole record systems

### Pole Tag Punch

### Slackmaster

Produces slack when applied to insulated cable. Relieves conductor tension encountered when splicing in ready-access closures.

### Aerial Tools
