Two large, flexible hanging hooks come standard on 50, 36 and 24 watt lights. 13 watt light has one hanging hook.

Twin Lamp High Intensity Lights

High intensity work lights handle a variety of applications, especially where workspace is limited.

- Electronic ballast for flicker-free light
- Patented floating bulb socket to protect lamp from impact
- Double-insulated with no exposed wires
- Handles and end caps are designed to absorb impact
- Twin-tube compact fluorescent lamp
- 13, 24, 36 and 50 Watt, 110 Volt AC
- Meets ASTM specifications for water resistance
