

LED STRING LIGHT

LED SHELTER LIGHTS

Jameson's LED shelter lights retain the exceptional features and benefits standard on our fluorescent stringable lights:

- Multi-Volt Capability 100-240 VAC, 50-60Hz
- Independent Pass-Through Power
- Individual On-Off Switch
- Superior Hot & Cold Temperature Performance
- Durable, Compact Design
- Light Weight
- Flicker Free Light

With the added benefits of LED technology:

- Longer Life (50,000 Hour Rating)
- 25-60% Lower Power Consumption (Depending on Mode)
- Push Button Dimming & Blackout Modes
- Glare Reducing Optical Design
- Improved Strain Relief

Patent Pending
